God of Meme – Whitepaper (Draft)

1. Project Overview

God of Meme is an early-stage, community-driven meme token project.

Although it is a meme token,

we are building the project seriously with a focus on

a sustainable ecosystem and active community engagement.

2. Project Goals

Encourage community participation and ensure transparent operations

Build a stable token ecosystem

Design a project that is easy to understand and participate in, even for beginners

3. Token Details

Token Name: God of Meme (GOM)

Token Standard: BEP-20

Total Supply: 100,000,000 GOM

Initial Liquidity Pool: PancakeSwap

God of Meme – Whitepaper (Draft)

4. Project Roadmap

Initial token distribution and community formation

Launch official website and social channels

Improve features and expand the ecosystem based on community feedback

5. Community Engagement
